PopPanel Research Report No. 23 cum
Community Democracy Project Research Report No. 20
cum Community Health Project Research Report No. 16

Survey Date: 18 to 21 May 2020

Release Date: 22 May 2020

Research Background

Initiated by the Hong Kong Public Opinion Research Institute (HKPORI), the "Community Integration through Cooperation and Democracy, CICD" Project (or the "Community Democracy Project") aims to provide a means for Hongkongers to re-integrate ourselves through mutual respect, rational deliberations, civilized discussions, personal empathy, social integration, and when needed, resolution of conflicts through democratic means. It is the rebuilding of our Hong Kong society starting from the community level following the spirit of science and democracy. For details, please visit: https://www.pori.hk/cicd.

The surveys of Community Democracy (CD) Project officially started on 3 January 2020, targeting members of "HKPOP Panel" established by HKPORI in July 2019, including "Hong Kong People Representative Panel" (Probability-based Panel) and "Hong Kong People Volunteer Panel" (Non-probability-based Panel). This report also represents Report No. 23 under HKPOP Panel survey series, as well as Report No. 20 under the CD Project survey series. Since CD Project aims to gauge the opinions of members in different communities, HKPORI needs to continuously recruit new panel members and map their profile with their respective constituency areas to form "HKPOP Community Panel" including "Community Representative Panel" and "Community Volunteer Panel" first, and then conduct the research.

In view of the outbreak of Novel Coronavirus (also known as "Wuhan Pneumonia") in late January 2020, HKPOP kick-started the "Community Democracy Project: Community Health Module" or "Community Health Project" using a PopPanel survey design to study the public's views on the epidemic and the Government's relevant polices using small communities such as housing estates as the unit of analysis. The survey covers people's views on their perceived chance of contracting pneumonia, appraisal on the government's handling of the disease, impacts of the border closure, calls for strike by frontline medical staff, community outbreak, work-from-home arrangement, immigration controls, general use of face masks as well as the government's implementation of relevant policies. This is the Report No. 16 under the Community Health Project survey series. The special feature of the Community Health Project is the lowering of respondents' age bracket to 12 years old, in order to obtain more comprehensive samples.

HKPOP sent out emails to all panel members at the beginning of the survey, inviting them to fill in the questionnaire at the designated online platform. Members were allowed to make repeated submissions, while only the last submission of each individual member would be used for analysis.

Contact Information

Herewith the contact information of this Community Health survey:

Table 1: Detailed Contact Information

Survey method	Online survey	
Target population	HKPOP Panel samples, namely Hong Kong People Representative Panel (Probability-based Panel) and Hong Kong People Volunteer Panel (Non-probability-based Panel)	
Weighting method	The figures are rim-weighted according to 1) gender-age distribution of Hong Kong population and by District Councils population figures from Census and Statistics Department; 2) Voting results of District Councils Election from Registration and Electoral Office; 3) rating distribution of Chief Executive from regular tracking surveys.	
Date of survey	May 18, 3pm – May 21, 3pm	
Total sample size	Probability-based Panel: 641	Non-probability-based Panel: 6,551
Response rate	Probability-based Panel: 8.2%	Non-probability-based Panel: 9.9%
Sampling error [1]	Sampling error of percentages at +/-4% at 95% confidence level	Sampling error of percentages at +/-1% at 95% confidence level

[1] All error figures in this release are calculated at 95% confidence level. "95% confidence level" means that if we were to repeat a certain survey 100 times with different random samples, we would expect 95 times having the population parameter within the respective error margins calculated. Because of sampling errors, when quoting percentages, journalists should refrain from reporting decimal places, whereas one decimal place can be used when quoting rating figures.

PopPanel Composition

Regarding data collection, survey data from both the Hong Kong People Representative Panel and Hong Kong People Volunteer Panel were collected in the form of online questionnaire.

Among them, the Hong Kong People Representative Panel comes from members of the "HKPOP Panel" recruited in regular random telephone surveys. HKPOP uses "HKPOP Panel" as a framework for conducting surveys for different research projects, any eligible family member in the household may be invited to participate in a specific research.

Meanwhile, members of the Hong Kong People Volunteer Panel are recruited online. Citizens only need to self-register in HKPORI website to participate in online questionnaires.

All panel data collected will be adjusted using rim-weighting, to minimize the effects of self-selection bias or participation bias. Details are documented in the Weighting Procedure section.

Response Rate

HKPOP adopts a set of contact definition in compliance with most international standards. Historically, the social research community in Hong Kong has developed its own set of contact rates, cooperation rates, response rates, and so on. HKPOP normally reports the "success rate" for online surveys.

The calculation of the success rates in this study refers to the following tables.

Table 2: Calculation of success rate of the Hong Kong People Representative Panel (by HKPOP definition)

$$
\begin{aligned}
\text{Success rate} \quad &= \frac{\text{Successful cases}}{\text{Panel size of the Hong Kong People Representative Panel}} \times 100.0\% \\
&= \frac{641}{7{,}852} \times 100.0\% \\
&= 8.2\%
\end{aligned}
$$

Table 3: Calculation of success rate of the Hong Kong People Volunteer Panel (by HKPOP definition)

$$
\begin{aligned}
\text{Success rate} \quad &= \frac{\text{Successful cases}}{\text{Panel size of the Hong Kong People Volunteer Panel}} \times 100.0\% \\
&= \frac{6{,}551}{66{,}421} \times 100.0\% \\
&= 9.9\%
\end{aligned}
$$

.

Weighting Procedure

HKPOP has continuously adopted and enhanced its weighting method over the past few decades. For this survey, HKPOP adopts a "18 by 3 by 10" weighting procedure involving three one-way variables, namely, district (18 cells), voting record (3 cells) and rating of Chief Executive (13 cells). Basically, the raw data of practically all random telephone surveys conducted by HKPOP are rim-weighted by the figures obtained from the Hong Kong Census and Statistics Department and/or Registration and Electoral Office so that the marginal distribution of the sample in terms of district and voting record would match with that of the general population. The marginal distribution of the sample in terms of "rating of Chief Executive" would match that of the general population in HKPOP's regular tracking surveys. This rim-weighting method (sometimes called raking) is found to be the most practicable method in processing HKPOP's survey data.

Specifically, the districts used for weighting are as follows:
- Central and Western
- Wan Chai
- Eastern
- Southern
- Yau Tsim Mong
- Sham Shui Po
- Kowloon City
- Wong Tai Sin
- Kwun Tong
- Tsuen Wan
- Tuen Mun
- Yuen Long
- North
- Tai Po
- Sai Kung
- Sha Tin
- Kwai Tsing
- Islands

The voting records used for weighting are as follows:

- Candidates of pro-democracy camp
- Candidates of non-pro-democracy camp
- Did not vote / blank/void vote

The "rating of Chief Executive" groupings used for weighting are as follows:

- 0 mark
- 1-9 mark(s)
- 10-19 marks
- 20-29 marks
- 30-39 marks
- 40-49 marks
- 50 marks
- 51-60 marks
- 61-70 marks
- 71-80 marks
- 81-90 marks
- 91-99 marks
- 100 marks

Quantitative Analysis Results

Results of the quantitative analyses of this Community Health survey are as follows:

Table 4: Q1 Survey results, by panel type; Survey period: 18–21/5/2020

Opinion Question*	Hong Kong People Representative Panel (Base=638)			Hong Kong People Volunteer Panel (Base=6,529)		
	Don't know / hard to say	Try to predict	Average	Don't know / hard to say	Try to predict	Average
Q1 What do you think is your chance of being infected with **novel coronavirus pneumonia**, also known as Wuhan pneumonia, in the coming one month?	17%	**83%**	**16%**	18%	**82%**	**17%**

* Answer options included: 0-10 rating scale, others and don't know / hard to say

<u>Chart 1: Q1 Combined charts, by panel type</u>

People appraisal of chance of being infected with novel coronavirus pneumonia
Table 5: Q2 Survey results, by panel type; Survey period: 18–21/5/2020

Opinion Question*	Hong Kong People Representative Panel (Base=640)				Hong Kong People Volunteer Panel (Base=6,541)			
	Satisfied	Half-half	Dissatisfied	Mean	Satisfied	Half-half	Dissatisfied	Mean
Q2 How satisfied or dissatisfied are you with the **government's performance in handling novel coronavirus pneumonia**?	42%	12%	47%	2.7	33%	13%	**54%**	2.5

* Answer options included: very much satisfied, somewhat satisfied, half-half, somewhat dissatisfied, very much dissatisfied and don't know / hard to say

Chart 2: Q2 Combined charts, by panel type

People appraisal of Government's performance in handling novel coronavirus pneumonia

Table 6: Q3 Survey results, by panel type; Survey period: 18–21/5/2020

Opinion Question*	Hong Kong People Representative Panel (Base=641)				Hong Kong People Volunteer Panel (Base=6,535)			
	Big effect	Half-half	Small effect / no effect	Mean	Big effect	Half-half	Small effect / no effect	Mean
Q3 How would you rate the effect of "**people's behaviour like not wearing masks, more social gatherings, and so on"** on the increased number of reported cases?	**66%**	18%	12%	3.7	**65%**	21%	12%	3.8

* Answer options included: very big effect, quite big effect, half-half, quite small effect, very small effect / no effect and don't know / hard to say

Table 7: Q4 Survey results, by panel type; Survey period: 18–21/5/2020

Opinion Question*	Hong Kong People Representative Panel (Base=640)				Hong Kong People Volunteer Panel (Base=6,535)			
	Big effect	Half-half	Small effect / no effect	Mean	Big effect	Half-half	Small effect / no effect	Mean
Q4 How would you rate the effect of **"relaxation of anti-pandemic restrictions like resumption of work and business, lifting the regulation prohibiting gatherings, and so on"** on the increased number of reported cases?	34%	40%	21%	3.1	28%	41%	27%	3.0

* Answer options included: very big effect, quite big effect, half-half, quite small effect, very small effect / no effect and don't know / hard to say
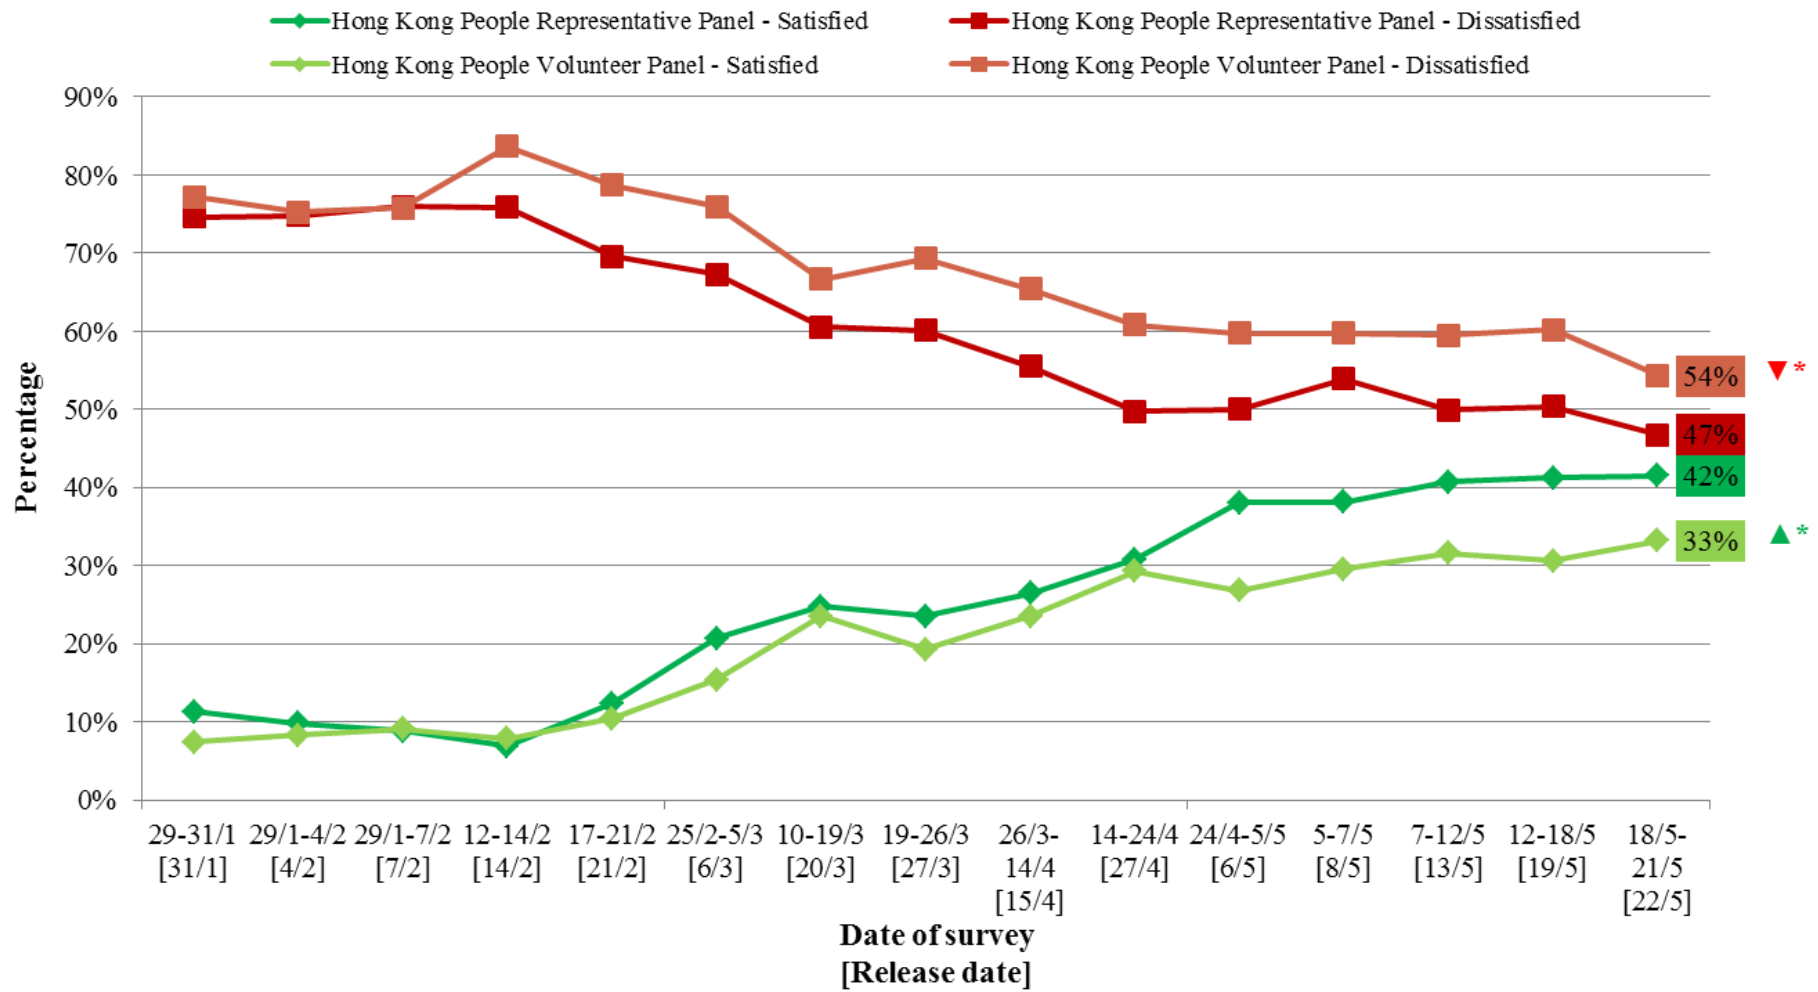

Table 8: Q5 Survey results, by panel type; Survey period: 18–21/5/2020

Opinion Question*	Hong Kong People Representative Panel (Base=641)				Hong Kong People Volunteer Panel (Base=6,531)			
	Big effect	Half-half	Small effect / no effect	Mean	Big effect	Half-half	Small effect / no effect	Mean
Q5 How would you rate the effect of **"loosening of border control"** on the increased number of reported cases?	**72%**	18%	6%	4.2	**76%**	15%	6%	4.2

* Answer options included: very big effect, quite big effect, half-half, quite small effect, very small effect / no effect and don't know / hard to say

Perceived Risk of Novel Coronavirus Pneumonia

SPH Questionnaire (omitted here)

Specifically, how likely do you think it is that you will contract novel coronavirus pneumonia over the next one month?

(Please select the closest answer. If you have another answer, please fill in the last item.)

○   Certainly not
○   10% chance
○   20% chance
○   30% chance
○   40% chance
○   50% chance
○   60% chance
○   70% chance
○   80% chance
○   90% chance
○   100% chance (Certainly will)
○   Don't know / hard to say
○   Other: _____

SPH Questionnaire (omitted here)

Opinion Questions

What do you think is the appropriate timing to completely resume normal work under the pandemic?

(Please select the closest answer; If there is no suitable answer at all, please select "don't know / hard to say".)

○   Should completely resume normal work unconditionally
○   Number of recovered cases exceeds newly confirmed cases each day
○   Number of newly confirmed cases each day falls to a single digit
○   No more newly confirmed local case
○   No more newly confirmed local or imported case
○   No more newly confirmed local case in L consecutive days (Please input L in the next page)
○   No more newly confirmed local and imported case in N consecutive days (Please input N in the next page)
○   Don't know / hard to say

Opinion Questions

How many consecutive days (the value of L mentioned before) with no more newly confirmed local case do you think there should be before it is appropriate to completely resume normal work?

_____

Opinion Questions

How many consecutive days (the value of N mentioned before) with no more newly confirmed local and imported case do you think there should be before it is appropriate to completely resume normal work?

_____

Opinion Questions

What do you think is the appropriate timing to completely lift the regulation prohibiting gatherings of more than a specific number of people in public places under the pandemic?

(Please select the closest answer; If there is no suitable answer at all, please select "don't know / hard to say".)

○ Should completely lift the regulation prohibiting gatherings of more than a specific number of people in public places unconditionally

○ Number of recovered cases exceeds newly confirmed cases each day

○ Number of newly confirmed cases each day falls to a single digit

○ No more newly confirmed local case

○ No more newly confirmed local or imported case

○ No more newly confirmed local case in L consecutive days (Please input L in the next page)

○ No more newly confirmed local and imported case in N consecutive days (Please input N in the next page)

○ Don't know / hard to say

Opinion Questions

How many consecutive days (the value of L mentioned before) with no more newly confirmed local case do you think there should be before it is appropriate to completely lift the regulation prohibiting gatherings of more than a specific number of people in public places?

_____

Opinion Questions

How many consecutive days (the value of N mentioned before) with no more newly confirmed local and imported case do you think there should be before it is appropriate to completely lift the regulation prohibiting gatherings of more than a specific number of people in public places?

_____

Opinion Questions

Hong Kong is having more cases of coronavirus disease recently, how would you rate the effect of the following factors? The first one is "people's behaviour like not wearing masks, more social gatherings, and so on".

- ◯ Very big effect
- ◯ Quite big effect
- ◯ Half-half
- ◯ Quite small effect
- ◯ Very small effect / no effect
- ◯ Don't know / hard to say

How would you rate the effect of "relaxation of anti-pandemic restrictions like resumption of work and business, lifting the regulation prohibiting gatherings, and so on" on the increased number of reported cases?

- ◯ Very big effect
- ◯ Quite big effect
- ◯ Half-half
- ◯ Quite small effect
- ◯ Very small effect / no effect
- ◯ Don't know / hard to say

How would you rate the effect of "loosening of border control" on the increased number of reported cases?

- ◯ Very big effect
- ◯ Quite big effect
- ◯ Half-half
- ◯ Quite small effect
- ◯ Very small effect / no effect
- ◯ Don't know / hard to say

How would you rate the effect of "inadequate volume of deep throat saliva for virus screening" on the increased number of reported cases?

- ◯ Very big effect
- ◯ Quite big effect
- ◯ Half-half
- ◯ Quite small effect
- ◯ Very small effect / no effect
- ◯ Don't know / hard to say

Opinion Questions

How satisfied or dissatisfied are you with the government's performance in handling novel coronavirus pneumonia?

- ◯ Very much satisfied
- ◯ Somewhat satisfied
- ◯ Half-half
- ◯ Somewhat dissatisfied
- ◯ Very much dissatisfied
- ◯ Don't know / hard to say

Please rate on a scale of 0 to 100 your extent of support to the Chief Executive Carrie Lam, with 0 indicating absolutely not supportive, 100 indicating absolutely supportive and 50 indicating half-half. How would you rate the Chief Executive Carrie Lam? [For weighting purposes only]

(To opt for "don't know / hard to say", please input 8888)

_____

Other Opinions

Do you have any survey question to suggest for our surveys?

(If you do not have any suggestion, please leave this space blank.)

_____

Please provide your suggestions on the environmental hygiene and public health of your estate or community, so that we can relay them to relevant District Councillors or authorities:

(If you do not have any suggestion, or do not want to revise your previous suggestion, please leave this space blank. Comments submitted before May 18 would not be counted in this round of survey, while for repeated submissions after May 18, only the last non-empty submission will be included in the final results.)

_____

Do you have any needs which you want us to forward to your District Councillor or other persons you name here? (Please write down your contacts)

(The request you make here is not part of our study, we simply want to bridge people who need help with people who can help.)

_____

Personal Information

If you have answered the following questions in this survey series since late January, you may choose to skip the relevant questions on this page. We will use the past data you provided in this survey series for the analysis.

Gender

○ Male

○ Female

Age

_____

Age range

(If prefer not to provide exact age)

○ 12 - 14

○ 15 - 17

○ 18 - 19

○ 20 - 24

○ 25 - 29

○ 30 - 34

○ 35 - 39

○ 40 - 44

○ 45 - 49

○ 50 - 54

○ 55 - 59

○ 60 - 64

○ 65 - 69

○ 70 or above

Educational attainment

(The highest level attended, regardless of whether you have completed the course, including what you are attending)

○ No formal schooling / kindergarten

○ Primary

○ Lower secondary (Secondary 1 to 3)

○ Upper secondary (Secondary 4 to 7 / DSE / Yi Jin)

○ Tertiary: non-degree course (including diploma / certificate / sub-degree course)

○ Tertiary: bachelor degree course

○ Tertiary: postgraduate school or above

Occupation

(Owner / self-employed / freelance / part time / civil servant are not valid answers, please answer according to the job nature or content)

◯ Administrator and professional

◯ Clerical and service worker

◯ Production worker

◯ Student

◯ Home-maker / housewife

◯ Retired person

◯ Unemployed / between jobs / other non-employed

◯ Other: _____

Personal Information

If you have answered the following questions in this survey series since late January, you may choose to skip the relevant questions on this page. We will use the past data you provided in this survey series for the analysis.

Industry

◯ Manufacturing

◯ Electricity and gas supply; sewerage, waste management and remediation activities

◯ Construction

◯ Import and export trade

◯ Wholesale
