## Group Gathering Prohibition Index – Commentary

香港民意研究所主席及行政總裁鍾庭耀解釋：「今天的『限聚指數』是 11.4，超越現行限聚令 7.4 人，有 69% 市民認為現時限聚令太緊，顯示大部份市民希望放寬限聚措施，但強烈程度就是三天以來最低，明顯是因為確診個案緩緩回升至雙位數字有關。」

**President and CEO of HKPORI Robert Chung observed, “The reading of ‘Group Gathering Prohibition Index’ stands at 11.4 today, which is 7.4 persons higher than the official limit. Most people want to see a relaxation of the ban, as 69% considered the current ban too strict. However, the intensity of such a wish has dropped to a 3-day low, obviously due to the gradual increase in the number of confirmed infected cases to a double-digit figure during this period.”**
