香港教育中心商會副主席任偉豪指出,「認為限聚措施太緊的市民已連續多日保持在極高的水平, 反映市民認為限聚措施是不必這麼緊的。政府已經連續多月呼籲市民注射疫苗,但市民注射疫苗的 比例一直都是處於很低的水平,只有不足百分之二十。我相信很多市民認為現時沒有必要去注射疫 苗,是因為他們認為現時的防疫措施已十分足夠。可以思考的是,如果政府想多些市民注射疫苗, 是否可以考慮進一步放寬防疫措施呢?」

Vice Chairman of The Hong Kong Chamber of Education Centres Yam Wai Ho observed, "The percentage of Hong Kong citizens who believe that the group gathering restrictions are too tight have been maintained at an extremely high level for many days, reflecting public's belief that the restrictions need not be so tight. The government has been calling for people to get vaccinated for several months, but the proportion of people who have been vaccinated has stayed at a very low level, at less than 20%. I think many people do not think it is necessary to get vaccinated now because they think that the existing vaccination measures are sufficient enough. What can be considered is, if the government wants more people to be vaccinated, can it consider further relaxing the epidemic prevention measures?"
