獨立評論人潘麒智指出：「變種病毒肆虐，專家認為達致群體免疫根本難以實行，但港府卻繼續盲目盲針，以全民接種為目標，並有意推行『健康通行證』，只准完成接種疫苗的市民進入部分處所。根據現行防疫限制，大部分食肆、戲院及美容院等尚未設疫苗要求的行業，很可能淪為盲針的目標。過去一年飽受疫情及防疫措施打擊的處所將雪上加霜，此舉完全是與民為敵，將百業趕上絕路，本人認為港府應三思。」

Independent commentator KC Poon observed, “Experts believe that herd immunity is impracticable due to virus mutation. However, the Hong Kong government is blindly insisting for universal vaccination, and intends to introduce the ‘Health Pass’ which only allows vaccinated people to enter certain premises. Most businesses like restaurants, cinemas and beauty salons, which do not have vaccination requirement yet are likely to be the target. These businesses have been hard hit by the epidemic, they are set to suffer more. This move is totally against people’s will and would drive all businesses to the brink of extinction. I think the government should think again and again.”
