Hong Kong Public Opinion Research Institute

PopPanel Research Report No. 148 cum “We Hongkongers” Research Report No. 105

Survey Date: 7 October to 12 October 2022

Release Date: 14 October 2022

Copyright of this report was generated by the Hong Kong Public Opinion Research Institute (HKPORI) and opened to the world.
HKPORI proactively promotes open data, open technology and the free flow of ideas, knowledge and information.

Research Background

"We Hongkongers" is an initiative advocated by Hong Kong Public Opinion Research Institute (HKPORI), with the support of many members of the civic society. With reference to the petition website "We the People" hosted by the White House of the United States, "We Hongkongers" aims to reflect public sentiment by conducting scientific research on any issues raised by Hong Kong citizens: <https://www.pori.hk/research-reports-en/wehkers.html?lang=en>.

"We Hongkongers" Project officially started on 17 October 2019, in the form of intensive rolling surveys. A total of 12 reports were published as of 23 December 2019. In mid-May 2020, in response to the rapid changes in Hong Kong's political and public sentiment, HKPORI redeveloped the "We Hongkongers" Project. Coupled with the rapid development of the "HKPOP Panel" established by PORI in July 2019, PORI decided to launch the "We Hongkongers Panel Survey" to further strengthen interaction with the public and as well as collect and analyze public opinion and there are 29 reports in total. In January 2021, PORI redeveloped the "We Hongkongers" Project again to strengthen the cooperation with non-governmental organizations, civil society organizations, concern groups and professional organizations, and the results will be released in the form of mini-forums to initiate policy discussions.

This is Report No. 105 under our "We Hongkongers" Project Series, as well as Report No. 148 under HKPOP Panel Survey Series, which is our broader umbrella for our online panel surveys. Around the time of our data collection for this survey, John Lee has become the Chief Executive for 100 days and he will announce his first Policy Address soon. We have thus added the themes of "Policy Address expectations" and "CE 100 days in office" to the survey, in addition to the topic of "Living and working in Greater Bay Area" which has become a repeated tracking survey in our "We Hongkongers" Project Series.

HKPORI sent out emails to all panel members at the beginning of the survey, inviting them to fill in the questionnaire at the designated online platform. Members were allowed to make repeated submissions, but only the last submission of each individual member would be used for analysis in this report.

Contact Information

Herewith the contact information of the “We Hongkongers” Panel Survey:

Table 1: Detailed Contact Information

Survey method	Online survey
Target population	HKPOP Panel samples, namely Hong Kong People Representative Panel (Probability-based Panel) and Hong Kong People Volunteer Panel (Non-probability-based Panel)
Weighting method	Rim-weighted according to 1) gender-age distribution, educational attainment (highest level attended) distribution and economic activity status distribution of Hong Kong population from Census and Statistics Department; 2) appraisal of political condition and political inclination distribution from regular tracking surveys.
Date of survey	7 October, 3pm – 12 October, 3pm
Total sample size	4,736
Response rate	5.6%
Sampling error ^[1]	Sampling error of percentages at +/-1% at 95% confidence level

[1] All error figures in this release are calculated at 95% confidence level. “95% confidence level” means that if we were to repeat a certain survey 100 times with different random samples, we would expect 95 times having the population parameter within the respective error margins calculated. Because of sampling errors, when quoting percentages, journalists should refrain from reporting decimal places, whereas one decimal place can be used when quoting rating figures.

PopPanel Composition

Regarding data collection, survey data from both the Hong Kong People Representative Panel and Hong Kong People Volunteer Panel were collected in the form of online questionnaire.

Among them, the Hong Kong People Representative Panel comes from members of the “HKPOP Panel” recruited in regular random telephone surveys. HKPORI uses “HKPOP Panel” as a framework for conducting surveys for different research projects, any eligible family member in the household may be invited to participate in a specific research.

Meanwhile, members of the Hong Kong People Volunteer Panel are recruited online. Citizens only need to self-register in HKPORI website to participate in online questionnaires.

All panel data collected will be adjusted using rim-weighting, to minimize the effects of self-selection bias or participation bias. Details are documented in the Weighting Procedure section.

Response Rate

HKPORI adopts a set of contact definition in compliance with most international standards. Historically, the social research community in Hong Kong has developed its own set of contact rates, cooperation rates, response rates, and so on. HKPORI normally reports the "success rate" for online surveys.

The calculation of the success rates in this study refers to the following tables.

Table 2: Calculation of success rate of the HKPOP Panel (by HKPORI definition)

Success rate		
=	$\frac{\text{Successful cases}}{\text{Panel size of the HKPOP Panel}}$	x 100.0%
=	$\frac{4,736}{84,739}$	x 100.0%
=	5.6%	

Weighting Procedure

HKPORI has continuously adopted and enhanced its weighting method over the past few decades. For this survey, HKPORI adopts a "2 by 5 by 2 by 4 by 5 by 4" weighting procedure involving six variables, namely, gender, age, educational attainment, economic activity status, appraisal of political condition and political inclination. Basically, the raw data of practically all random telephone surveys conducted by HKPORI are rim-weighted by the figures obtained from the Hong Kong Census and Statistics Department so that the marginal distribution of the sample in terms of gender, age, educational attainment and economic activity status would match with that of the general population figures from the Hong Kong Census and Statistics Department. The marginal distribution of the sample in terms of appraisal of political condition and political inclination would match that of the general population in HKPORI's regular tracking surveys. This rim-weighting method (sometimes called raking) is found to be the most practicable method in processing HKPORI's survey data.

Specifically, the gender and age groupings used for weighting are as follows:

- Male 12-29
- Male 30-39
- Male 40-49
- Male 50-59
- Male 60 or above
- Female 12-29
- Female 30-39
- Female 40-49
- Female 50-59
- Female 60 or above

The educational attainments used for weighting are as follows:

- Secondary or below
- Tertiary or above

The economic activity statuses used for weighting are as follows:

- Working population / Others
- Home-makers / Housewives
- Students
- Retired person

The appraisals of political condition used for weighting are as follows:

- Very satisfied
- Quite satisfied
- Half-half // Don't know / hard to say // Refused to answer
- Quite dissatisfied
- Very dissatisfied

The political inclinations used for weighting are as follows:

- Pro-democracy camp
- Pro-establishment camp
- Localist
- Centrist // Other // No political inclination / politically neutral / do not belong to any camp // Don't know / hard to say // Refused to answer

Part 1:

Policy Address Expectations

Quantitative Analysis Results

Quantitative analysis results of the “We Hongkongers” Panel Survey, after applying the standard weighting procedures, are as follows, all questions listed hereby are opinion questions:

Table 3: Q1 Survey results; Survey period: 7-12/10/2022

Q1 CE Carrie Lam will soon deliver the 2021 Policy Address. How important or unimportant do you think the Polity Address is?	Pro-democracy camp supporters (Base=3,953)	Non- pro-democracy camp supporters ^[2] (Base=548)	Combined (Base=4,729)
Very important	8%	21%	16%
Somewhat important } Important	14% } 22%	38% } 59%	31% } 47%
Half-half	20%	21%	20%
Somewhat unimportant } Unimportant	17% } 46%	5% } 14%	10% } 25%
Very unimportant	29%	9%	15%
Don't know / hard to say	11%	6%	8%
Mean^[3]	2.5	3.6	3.2

[2] Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

[3] The mean value is calculated by quantifying all individual responses into 1, 2, 3, 4, 5 marks according to their degree of confidence, where 1 is the lowest and 5 the highest, and then calculate the sample mean

Chart 1: Q1 Combined chart

* Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

Table 4: Q2 Survey results; Survey period: 7-12/10/2022

Q2 Irrespective of how important you think the Policy Address is, how much expectation do you have on it?	Pro-democracy camp supporters (Base=3,958)	Non-pro-democracy camp supporters ^[4] (Base=548)	Combined (Base=4,735)
Very high expectation	1%	9%	6%
Somewhat high expectation	10%	28%	22%
Half-half	4%	24%	4%
Somewhat low expectation	11%	12%	11%
Very low expectation	14%	2%	6%
No expectation	57%	21%	57%
Don't know / hard to say	4%	3%	4%
Mean ^[5]	2.3	3.4	2.3

[4] Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

[5] The mean value is calculated by quantifying all individual responses into 1, 2, 3, 4, 5 marks according to their degree of confidence, where 1 is the lowest and 5 the highest, and then calculate the sample mean

Chart 2: Q2 Combined chart

* Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

Table 5: Q3a Survey results; Survey period: 7-12/10/2022

Q3a Irrespective of how important you think the Policy Address is, how necessary is it that it deals with the <u>housing issue</u> ?	Pro-democracy camp supporters (Base=3,949)	Non-pro-democracy camp supporters ^[6] (Base=548)	Combined (Base=4,726)
Very necessary	60%	52%	55%
Somewhat necessary	22%	32%	28%
Half-half	11%	12%	12%
Somewhat unnecessary	1%	2%	1%
Very unnecessary	2%	2%	3%
Don't know / hard to say	5%	<1%	2%
Mean ^[7]	4.5	4.3	4.3

[6] Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

[7] The mean value is calculated by quantifying all individual responses into 1, 2, 3, 4, 5 marks according to their degree of confidence, where 1 is the lowest and 5 the highest, and then calculate the sample mean

Chart 3: Q3a Combined chart

* Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

Table 6: Q3b Survey results; Survey period: 7-12/10/2022

Q3b Irrespective of how important you think the Policy Address is, how necessary is it that it deals with the healthcare and public health issue?	Pro-democracy camp supporters (Base=3,956)	Non-pro-democracy camp supporters ^[8] (Base=548)	Combined (Base=4,733)
Very necessary	60%	53%	56%
Somewhat necessary	20%	31%	27%
Half-half	10%	11%	11%
Somewhat unnecessary	3%	1%	1%
Very unnecessary	2%	1%	2%
Don't know / hard to say	5%	2%	3%
Mean ^[9]	4.4	4.4	4.4

[8] Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

[9] The mean value is calculated by quantifying all individual responses into 1, 2, 3, 4, 5 marks according to their degree of confidence, where 1 is the lowest and 5 the highest, and then calculate the sample mean

Chart 4: Q3b Combined chart

* Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

Table 7: Q3c Survey results; Survey period: 7-12/10/2022

Q3c Irrespective of how important you think the Policy Address is, how necessary is it that it deals with the <u>education</u> issue?	Pro-democracy camp supporters (Base=3,948)	Non-pro-democracy camp supporters ^[10] (Base=545)	Combined (Base=4,722)
Very necessary	46%	39%	40%
Somewhat necessary	17%	33%	30%
Half-half	18%	17%	18%
Somewhat unnecessary	1%	5%	5%
Very unnecessary	6%	3%	4%
Don't know / hard to say	12%	2%	4%
Mean ^[11]	4.1	4.0	4.0

[10] Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp

[11] The mean value is calculated by quantifying all individual responses into 1, 2, 3, 4, 5 marks according to their degree of confidence, where 1 is the lowest and 5 the highest, and then calculate the sample mean
